Introduction

What is malpractice and maladministration?

'Malpractice' and 'maladministration' are related concepts, the common theme being that they involve a failure to follow the rules of an examination or assessment. This policy and procedure uses the word 'malpractice' to cover both 'malpractice' and 'maladministration' and it means any act, default or practice which is:

- a breach of the Regulations, and/or
- a breach of awarding body requirements regarding how a qualification should be delivered, and/or
- a failure to follow established procedures in relation to a qualification

which:

- gives rise to prejudice to candidates, and/or
- compromises public confidence in qualifications, and/or
- compromises, attempts to compromise or may compromise the process of assessment, the integrity of any qualification or the validity of a result or certificate, and/or
- damages the authority, reputation or credibility of any awarding body or centre or any officer, employee or agent of any awarding body or centre (SMPP 1)

Candidate malpractice

'Candidate malpractice' normally involves malpractice by a candidate in connection with any examination or assessment, including the preparation and authentication of any controlled assessments, coursework or non-examination assessments, the presentation of any practical work, the compilation of portfolios of assessment evidence and the completion of any examination. (SMPP 2)

Centre staff malpractice

'Centre staff malpractice' means malpractice committed by:

- a member of staff, contractor (whether employed under a contract of employment or a contract for services) or a volunteer at a centre, or
- an individual appointed in another capacity by a centre such as an invigilator, a Communication Professional, a Language Modifier, a practical assistant, a prompter, a reader or a scribe (SMPP 2)

Suspected malpractice

For the purposes of this document, suspected malpractice means all alleged or suspected incidents of malpractice (regardless of how the incident might be categorised, as described in SMPP, section 19). (SMPP 2)

Purpose of the policy

To confirm Cardinal Newman Catholic School:

- has in place for inspection that must be reviewed and updated annually, a written malpractice policy which covers all qualifications delivered by the centre detailing how candidates are informed and advised to avoid committing malpractice in examinations/assessments, how suspected malpractice issues should be escalated within the centre and reported to the relevant awarding body; it must also acknowledge the use of AI (e.g. what AI is, when it may be used and how it should be acknowledged, the risks of using AI, what AI misuse is and how this will be treated as malpractice) (GR 5.3)

General principles

In accordance with the regulations Cardinal Newman Catholic School will:

- take all reasonable steps to prevent the occurrence of any malpractice (which includes maladministration) before, during and after assessments have taken place (GR 5.11)
- inform the awarding body **immediately** of any alleged, suspected or actual incidents of malpractice or maladministration, involving a candidate or a member of staff, by completing the appropriate documentation (GR 5.11)
- as required by an awarding body, gather evidence of any instances of alleged or suspected malpractice (which includes maladministration) in accordance with the current JCQ document **Suspected Malpractice - Policies and Procedures** and provide such information and advice as the awarding body may reasonably require (GR 5.11)

Preventing malpractice

Cardinal Newman Catholic School has in place:

- Robust processes to prevent and identify malpractice, as outlined in section 3 of the JCQ document **Suspected Malpractice: Policies and Procedures**. (SMPP 4.3)
- This includes ensuring that staff involved in the delivery of assessments and examinations understand the requirements for conducting these as specified in the following JCQ documents and any further awarding body guidance:
 - General Regulations for Approved Centres 2024-2-25
 - Instructions for conducting examinations (ICE) 2024-2025

Additional information:

Informing and advising candidates how to avoid committing malpractice in examinations/assessments

Assemblies covering exam rules and regulations are organised for students in Years 10,11, 12 and 13. JCQ notices to candidates are emailed to parents and students at the start of their GCSE/A level course, are available on the school website under Our School/Examinations, and attached to personal exam timetables issued before each exam season. Teachers will reinforce this information during lessons prior to assessments.

Cardinal Newman Catholic School ensures that students are also made aware of the appropriate and inappropriate use of AI, the risks of using AI, and the possible consequences of using AI inappropriately in a qualification assessment.

During the assembly students are made aware of:

- a) The importance of students submitting their own independent work (a result of their own efforts, independent research, etc) for assessments and it is stressed to them the risks of malpractice.
- b) What AI is, the risks of using it, what AI misuse is, how this will be treated as malpractice, when it may be used and how it should be acknowledged.
- c) Students are advised how they should reference appropriately in their work (including websites) and are given clear guidance on how they should acknowledge any use of AI to avoid misuse.
- d) Students are fully briefed on and signposted to the appropriate JCQ Information for Candidates (www.jcq.org.uk/exams-office/information-for-candidates-documents).
- e) It is reinforced to students the significance of their (electronic) declaration where they confirm the work they're submitting is their own, the consequences of a false declaration, and that they have understood and followed the requirements for the subject.
- f) Students are reminded that awarding organisation staff, examiners and moderators have established procedures for reporting and investigating malpractice.

AI use in assessments

With reference to the JCQ guidance for Teachers & Assessors - AI Use in Assessments: Protecting the Integrity of Qualifications:

Students complete the majority of their exams and a large number of other assessments under close staff supervision with limited access to authorised materials and no permitted access to the internet. The delivery of these assessments should be unaffected by developments in AI tools as students must not be able to use such tools when completing these assessments.

There are some assessments in which access to the internet is permitted in the preparatory, research or production stages. The majority of these assessments will be Non-Examined Assessments (NEAs), coursework and internal assessments for General Qualifications (GQs) and Vocational & Technical Qualifications (VTQs). JCQ's guidance which is designed to help students and teachers to complete NEAs, coursework and other internal assessments successfully is followed in relation to these assessments.

The following JCQ support resources are also used to help teachers understand and prevent AI misuse and to help students to better understand the rules for use of AI in assessments:

Information Sheet for Teachers, Senior Leader Presentation for Teachers, Poster for Students, Teacher Presentation for Students.

- Malpractice by a candidate discovered in a controlled assessment, coursework or non- examination assessment component prior to the candidate signing the declaration of authentication does not need to be reported to the awarding body but will be dealt with in accordance with the centre's internal procedures.
